Art Unit: 1621

1. Claims 1-16 are generic to a plurality of disclosed patentably distinct species comprising compositions comprising hyaluronic acid, carboxymethyl cellulose and further comprising Schiff bases, Amadori products, etc.. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. Again, applicants are required to elect a single disclosed species, i.e. a single disclosed composition wherein all components are specified.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter O'Sullivan whose telephone number is (703) 308-4526.
